

## LOGISTICS INFORMATION

24 May 2019

Dear Newsagent,

Following consultation with VANA, to improve access to delivery time information, Nine are introducing a new logistics information line and an SMS alert service.

Commencing tomorrow, the new logistics information line will be available to Victorian newsagents. The logistics information line will provide newsagents with country and metropolitan truck departure times from 2am daily. Newsagents can access the logistics information line by calling 8667 3000.

An SMS alert service will operate to inform newsagents if truck departure times are running 60+ minutes behind schedule. The SMS alert is an opt-in service. Newsagents will receive an email with a [SMS alert registration link](#). SMS alerts will contain an opt-out link if you wish to be removed from receiving alerts.

Please contact our national Circulation Services team on 13 23 01 or your Sales Executive with any enquiries or feedback.

Regards,
